FROM
The Principal's Desk

My Dear Students,

Welcome to Nalanda College of Engineering (NCE). Our aim is to provide you the best quality education. In fact, the education is hidden in the student itself, we just encourage them to explore and enjoy the learning. Increasing diversity in needs and globalization have generated and enhanced the demand for competitive skills. So, the main purpose of Nalanda College of Engineering (NCE) is to provide such a platform where the needs can be fulfilled. Nalanda College of Engineering (NCE) motivates the students to develop leadership skills. we encourage them to trust in themselves and achieve great heights. In-fact, they can do everything if they believe in their abilities.

FROM TPO'S Desk

Introducing Nalanda College of Engineering in the historic city of Chandi, Bihar, known for the prestigious Nalanda University. Our commitment to excellence is inspired by the legacy of the ancient institution. We offer undergraduate programs in Computer Science, Electrical and Electronics, Mechanical, Aeronautical, and Civil Engineering. Our faculty comprises highly qualified professionals, dedicated to teaching and research.

Our campus placements have achieved remarkable success

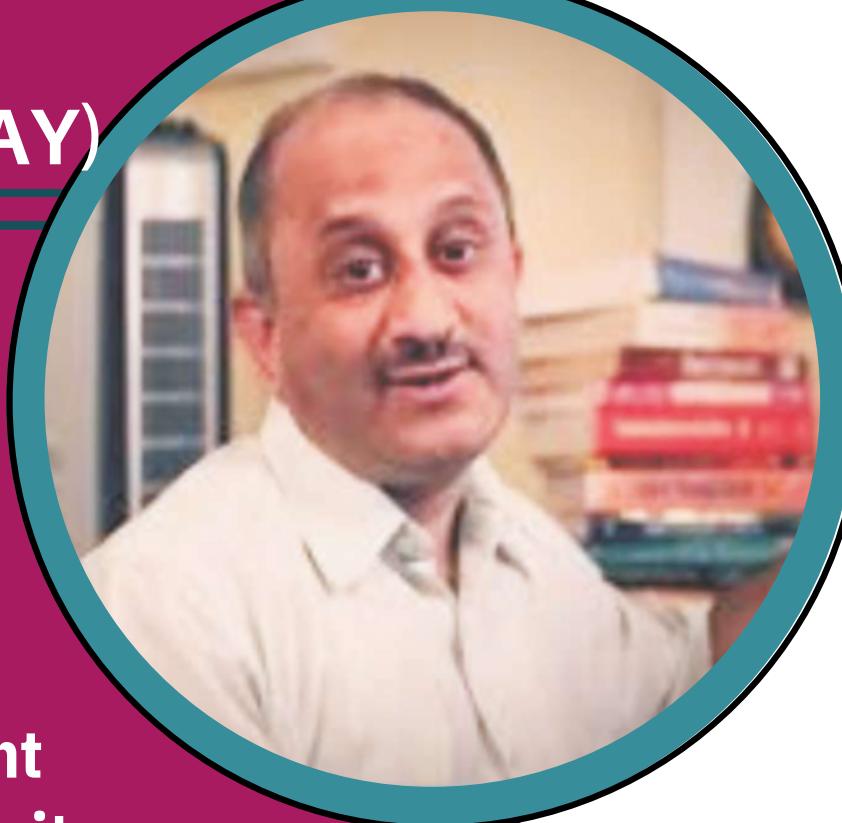

in the recent past, with graduates being recruited by top companies. Our graduates possess technical skills, as well as soft skills such as communication, leadership, and teamwork. Our curriculum is designed to provide a well-rounded education, preparing our students to face real-world challenges.

We invite you to explore recruiting our talented students and join our growing family of employers. Our detailed placement brochure includes information on our college, programs, facilities, and placement records. Thank you for considering Nalanda College of Engineering as your recruitment partner. We look forward to a fruitful association.

**FROM
Mentor Institute (IIT BOMBAY)**

Nalanda College of Engineering (NCE), Chandi, Bihar was twinned with IIT Bombay in TEQIP-III and we, at IIT Bombay were working with NCE to help build the Institution on all fronts. We sought the growth and progress of NCE in its academic programs, in its research and development activities, in its arrangements and set-up for all round student growth, training and placement and in establishing a culture of excellence and commitment, at NCE Chandi.

Several of our faculty and students, at IIT Bombay, had been working with NCE Chandi to make this

happen and we had been receiving a very enthusiastic response from NCE Chandi and its dynamic, industrious faculty and students. We are very happy to see this Training and Placement Brochure being created at NCE Chandi and look forward to its wide dissemination. We hope this brochure will inspire many industries, employers, and institutions to come forward and view the graduates of NCE Chandi, as possible partners, employees, and

working members of their own organizations, so that the good work done by the alumni of NCE Chandi would be reputed far and wide.

ABOUT WNC

Nalanda College of Engineering, Chandi one among the best Government Engineering College established in 2008 by the Government of Bihar under Department of Science and technology. Institute is located in a place which is historically so sound in terms of imparting education at international level i.e. Nalanda; a place of world's first university giving students a hereditary essence of world-class ancestral education. This place is located 50km from Patna with well-connected transport modes. The college campus that spread across 51 acres have an academic cum administrative block with well- equipped labs, a student library, separate hostels for boys and girls, open field playground and a canteen. The institute has been set up with an objective of quality technical education while sensitizing students towards the research fields and needs of the society through making aware of entrepreneurship. The rigorous and updated curriculum seeks to instil a passion for technical knowledge and ability to apply this knowledge in practical world needs by keeping sustainable development in mind.

Support from Government & Institutes

The Project, the Third phase of Technical Education Quality Improvement Program (referred to as TEQIP III) is fully integrated with the Twelfth Five- year plan objectives for Technical Education as a key component for improving the quality of Engineering Education in existing institutions with a special consideration for low Income States and Special Category States (SCS) and support to strengthen few affiliated to technical universities to improve their policy, academic, and management practices.

ACADEMIC DETAILS

The Programmes offered at NCE CHANDI are curated keeping in mind the needs of the industry. The courses taught are designed to keep the real life problems faced by the industry at bay. NCE CHANDI also encourages its undergraduate students to engage in research providing them exposure to the technology on which the world functions. The Undergraduate courses also have a provision that enables the students to get a minor degree in other disciplines. Numerous opportunities allow for cross-disciplinary and inter-disciplinary learning. Following are the courses offered at NCE CHANDI:

Bachelor of Technology (B. Tech))

DEPARTMENTS

- AERONAUTICAL ENGINEERING
- COMPUTER SCIENCE ENGINEERING
- MECHANICAL ENGINEERING
- CIVIL ENGINEERING
- ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING
- ELECTRICAL AND ELECTRONICS ENGINEERING

Master of Technology (M. Tech.)

DEPARTMENTS

- POWER SYSTEM

BEYOND ACADEMICS

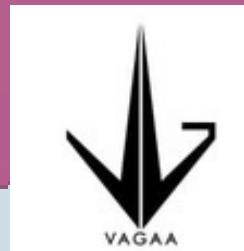

Yoga and exercise classes has been arranged for the newly admitted students (Induction Program)

Why Recruit US?

- Updated curriculum and well equipped labs.
- Enthusiastic participation and performance in competitive events of companies by students.
- Students undergoing internship / training at leading companies, PSUs and premier technical institute.
- Active engagement of students with industry through regular institute – industry interaction.
- Dedicated “Entrepreneurship Cell” for students to inculcate spirit of creativity, innovation, and entrepreneurship.
- Students having sound knowledge of their respective domains and interdisciplinary as well.
- Different cells formations dedicated to focus on all round development of students (Start-up cell, Internship cell, Industry Readiness etc.).

OUR STUDENTS ARE PLACED / WORKING IN THESE COMPANIES

MARUTI SUZUKI

Our Students are placed / working in these companies , PSUs and many other MNCs
